

VIASELL represents the global brands.

Metal Working Oils | Rust Preventives | Drawing & Forming Fluids | Die Casting Fluids | Forging Fluids | Industrial Lubes & Greases | Neat Cutting Oils | Non Ferrous Rolling Oils | Quenching Oils | Speciality Coatings | Steel Rolling Oils | Surface Treatment Fluids

Cutting Solutions by WALTER TOOLS is an innovator in the development and manufacture of innovative cutting tool solutions covering indexable insert and solid carbide tooling. . With over 130 Years of Experience. The Fundamental working and belief of - Engineering Competenz

UNIQUE SERVICE CONCEPT AND 55000 QUALITY TOOLS FOR MACHINING. WNT operates in a unique way to ensure that its customers are kept at the forefront of metal cutting efficiency, providing next day delivery on any of the more than 55,000 items in its range, the largest selection in the industry.

THE INNOVATION LEADER IN BORE MACHINING FOR OVER A CENTURY

KOMET is a technology leader in the area high-precision drilling, reaming, milling, threading and mechatronic tools.

JERGENS, THE WORLD LEADER, MEETS ALL YOUR FIXTURING REQUIREMENTS.

A complete solution & wide range in Workholding Solutions, Specialist Fasteners & Lifting Solutions.

A complete deep hole drilling solution from Italy.

**Destructing Heads | Coring Heads | Widening Heads
| Push Boring Heads | Pull Boring Heads |
Single Lip-Gun Drills**

ERTEK

Greenleaf is a leading developer of cutting tool technology, specializing in the manufacturing of high-performance tungsten carbide and ceramic inserts since 70 years.

**Milling | Turning | Boring | Aerospace | Grooving |
Heavy Turning | Special Inserts |**

Speroni is an Italian family owned company that offers state of the art solutions guaranteeing greater added value to final customers all over the world, since 1963

Tool Management Solutions | Tool Presetting & Measuring

speroni
precision by design

Zyfra MDC - Plus, a first step towards industry 4.0, it increases production efficiency upto 20%.

**Real Time Machine Monitoring | Production Control
No.of parts per shift | Computerized Maintenance
Power Consumption Monitoring |**

**iMachining - Patented technology from SolidCAM .
Fully automatic calculation of:
Feed Rate | Spindle Speed | Depth | Step Over**

Cycle time reduction upto 70%

VIASELL represents the global brands.

INTEGRATED TOOL MANAGEMENT SERVICES

iOT - Industry 4.0 Solution for Chemical Management

Core Competence: Waste Emulsion Treatment

Vision: Apply new products and processes to enhance customers' efforts, to improve their waste water treatment activities, related to cost benefit and environmental impact

THE INNOVATION LEADER IN 5 Axis MACHINING CENTRES FOR OVER A CENTURY

ALZMETALL is a technology leader in the area high-precision drilling, reaming, milling, threading and mechatronic machine tools.

VR | AR | Explainers | Intros

A complete solution & wide range in Digital Marketing and Product Demos

Your Productivity Partner

Industrial Fluids | Metal Working Tools | Softwares | Industry 4.0

YES! WE CAN HELP YOU.

Four steps to REDUCED CPC.

Upto 21% improvement in productivity.

With the C.O.S.T. method, we use a proven, structured process to identify the areas of improvements and help you implement the customized solutions without increasing the spend & disturbing your production.

Industries we cater to:

- Automobile & Heavy Engineering
- Aerospace
- Power Sector
- Oil & Gas
- Medical Manufacturing

- Steel
- Aluminium
- Die Casting
- Bearing
- Mining

- General Manufacturing
- Tubes & Pipe
- CAN Manufacturing
- Machinery & Equipment Manufacturers
